

## **RELIABLE & SUSTAINABLE SOLUTIONS**

- › CORROSION PROTECTION
- › CONCRETE PROTECTION
- › EPOXY/PU FLOORING
- › PASSIVE FIRE PROTECTION
- › MAINTENANCE & REPAIR PRODUCTS

# ABOUT US

Divya chemicals is consistently at the forefront of bringing innovative products and applications and redefining standards of customer services since 1984.

our portfolio includes over 500 cost effective and top quality products like anti corrosive coating, industrial resin flooring, adhesive & sealant, construction chemicals, passive fire protection system & maintenance & repair products those are marketed pan India

## OUR VALUED CUSTOMERS

### CHEMICALS

### FOOD & PHARMACEUTICALS

### POWER & WIND

### AGROCHEMICALS

### METAL

### FERTILIZER

### GLASS & CERAMIC

### ENGINEERING & AUTOMOBILE

### OIL & GAS

### TYRE

### DI-ELECTRIC/INSULATION FLOORING

#### High Built-High beakdown voltage solvent free Epoxy Insulation coating

- ⤵ Di- electric/ Insulation flooring – Substitute to rubber mat
- ⤵ Durable and more life than rubber mat, intrinsically safe, good esthetic look
- ⤵ High BDV, > 45 kV, suitable for class A and Class B
- ⤵ Very low leakage current, < 10 mA
- ⤵ AC proff of voltage withstood 3 mins @ 22 kV
- ⤵ Tested at ERDA Vadodara

- ⤵ Application Area: Suitable for LT & HT area in front of electric panels for human safety

Capacitor bank anti-tracking coating

Transformer anti-corrosive coating & transformer oil leakage arresting

## ELECTRICAL PRODUCTS AND SOLUTIONS

### PRE - MONSOON ACTIVITY IN ELECTRICAL DEPT.

Red Insulating Varnish For Electrical Motors

Anti-track coating/busbar insulation

Electrical Insulating Tapes HT/LT up to 69 kV, Water & Moisture proof, Non Adhesive Rubber, Self Fusing

Online Contact Cleaner (to clean ELE Contacts Fom dust, moisture)/ flash over carbon remover

Moisture Displacer (moisture/rain proofing in JB, Ele contacts etc, protection for 3-4 months outdoor)

Fire Retarding PU Foam/FR grade silicone sealant

## PASSIVE FIRE PROTECTION SYSTEM

### FIRE BARRIER ( FIRE STOP SEALING COMPOUND) - MORTAR BASE

Fire stop sealing compound is dry cement based mix with other chemical ingredients capable of controlled swelling, non shrinking homogenous smoke gas tight fire seal

- Tested and approved by FM and as per UL 1479 listed on FM global website
- Tested at CBRI as per IS 12458 and UL 1479
- Fire rating up to 4 hrs

Application Area: Fire barrier in wall where cable tray is passing, panel bottom area. horizontal cutout sealing at each floor of cable shaft as per new building code.

### FIRE RETARDANT CABLE COATING

Fire retarding cable coating compound is water based, solvent free, inorganic, non-combustible, fibre mixed compound.

- Tested and approved by FM and as per UL 1479 listed on FM global website
- Fire rating up to 2 hrs
- Tested as per Below International Standards
  - IEC 60331 - 21 (circuit integrity Test)
  - IEC 60332 - 3 vertical flame sprade - Category A
  - IEEE 383 - 1984 flame Test
  - IS 10810 Test of flamability & flame retardant
  - ASTM 2863-2000 oxygen index test
  - Current ampicity test
  - BS 875

Application Area: to stop fire propagation in MCC, PCC rooms, substations tank farm area, pump house, production area etc.

Also Available : Fire rated steel doors, curtains, partitions/walls.

## MECHANICAL PRODUCTS AND SOLUTIONS

Pump coating for energy efficiency and protection

Pump impeller for dynamic balancing after coating

Pipeline internal coating for corrosion & erosion protection

Pipeline strengthening by WRAPSEAL

Tube sheet Coating of HE/Condenser

Tank internal/external chemical resistance coating  
Food grade (CFTRI approved) Coating for potable water Tank

### JOTUN MULTICOLOR INDUSTRY FOR PROTECTIVE COATINGS

- ⌋ Jotun Multicolor industry provides an advanced efficient, economical and easy-to-operate color tinting system
- ⌋ Multicolor Industry incorporate the most innovative technologically advanced solution with unrivalled quality and reliability
- ⌋ Meet customers demand for accurate consistent special colors
- ⌋ Provide a range of topcoats (Epoxy, PU, synthetic, alkyd, etc.) that meet their specific need- fast and without wastage
- ⌋ Multicolor database comprises of all RAL, BS, IS, Munsell & Jotun Standard colors

---

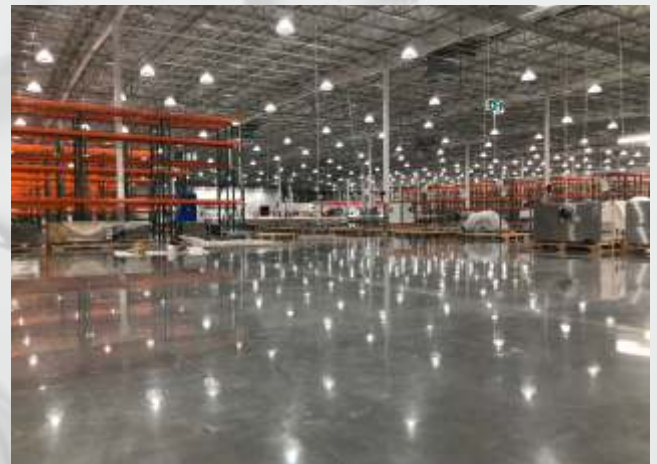

### OTHER MECHANICAL MAINTENANCE PRODUCTS

- ⌋ Lubricant, Anti Seize Paste, Mould Release, SS Cleaner cum Polish
- ⌋ Heavy duty rust remover
- ⌋ Aluminum & Zing Spray
- ⌋ Leak Repair Kit/ Cold Welding Compounding/ Piping Re- Strengthening
- ⌋ Chain lubricant/ wire rope lubricant
- ⌋ Food grade Lubricant for Food & Beverages, Pharma
- ⌋ Paint & Gasket Remover
- ⌋ Solvent & Water-Base Cleaner/de-greaser
- ⌋ Anerobics & Cynoacrylate Adhesive, Cynoacrylate Adhesive, Thread Locker Gasket Maker, Bearing Retainer

### EPOXY/ CONCRETE PU/ EPU FLOORING SYSTEM

- › Concrete floor protection against wear and tear, movements, spillages of chemicals, water, oil etc
- › Excellent self levelling properties,
- › High gloss/ matt
- › Seamless
- › Anti microbial
- › Excellent adhesion
- › Wear resistance
- › Good chemical resistance
- › Concrete PU can withstand temp from  $-20^{\circ}$  to  $+120^{\circ}$

Application Area: Ware house, production area, clean room area of pharma plants, Automobile, Engineering, cold storage, food & beverages, workshops, storage room, battery room etc

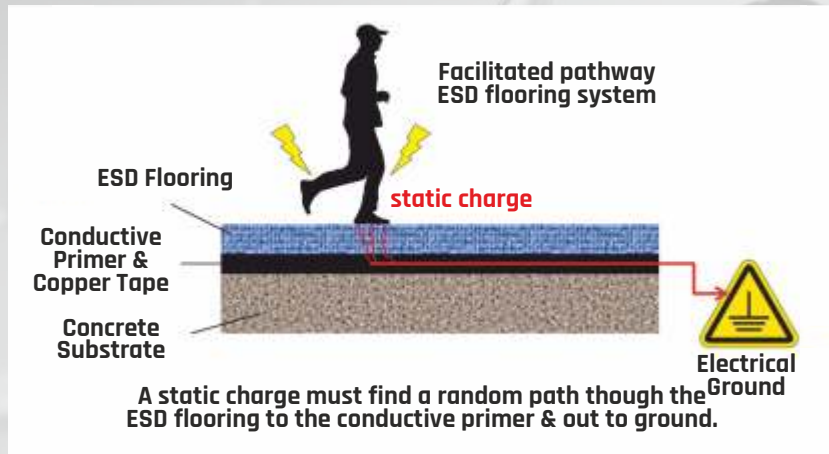

Chemical Resistance coating on dyke area, chemical production area, RO/DM plant

Densification and polished concrete

## ANTI-STATIC /ESD FLOORING

Electro static dissipative (ESD) flooring will dissipate Static charges generated in human body or machine by proper system.

### Application Area:

- ↳ Electronics manufacturing and electronic maintenance
- ↳ Solvent handling and storage area
- ↳ LED Manufacturing Facility
- ↳ Powder handling area in pharma
- ↳ Testing Facility

Terrace Water Proofing

Roof Water Proofing

- ↳ Liquid Membrane- Modified Cementitious, PU
- ↳ Sheet Membrane
- ↳ Poly Urea

Floor Repair Compound-  
Cementitious & Epoxy

Water proofing of Expansion Joint  
Joint sealant - Polysulphide, PU, Hybrid

Tank Boot Sealing

Tank Bottom Sealing for  
Corrosion Protection

Anti-carbonation coatings  
Anti microbial wall coating

ETP/STP/WTP rcc floor/tank  
protective coating

## OUR VALUE ADDED SERVICES

- ▷ Divya Chemicals Provides a Comprehensive technical support right from need identification, product selection to execution, testing and documentation
- ▷ Highly trained and Experienced field team available to assess and analyze each customers particular requirements.
- ▷ Experience to solve even the most complex problems.
- ▷ Preparation and application of work systems which are to the relevant standard and secure lasting protection.
- ▷ Corrosion survey for selection of Suitable product with Durability for Anti-Corrosive coating work.
- ▷ We are committed for timely Support, Services and quality job
- ▷ Standard Testing methods for Relevant Work like Resin Flooring, Insulation flooring, Coating system.
- ▷ We have Instruments like Pull off adhesion, Moisture meter, Rebound hammer, DFT & WFT Meter, hygrometer, Profile gauge, surface resistivity meter, spark testing and machines like Blasting Instrument, Airless spray, scarifier machine.

Surface Resistivity

Holiday Testing

Pull off Adhesion Test

DFT Testing

Salt Contamination Test

WFT Testing

Rebound Hammer for  
RCC Strength

 301, Gaurinandan Complex, Uma Char Rasta,  
Waghodia Road, Vadodara-390019
